“The COP28 UN CC: Learn Climate Classroom has been helpful in expanding my knowledge and has helped me develop regionally specific strategic plans to support a just transition and equitable distribution of the burdens and benefits of maritime operation in my community.”

“This type of virtual session is good, especially for researchers and students who want to save their time and learn a lot about a particular topic.”

“It was inspiring to be in such an international audience, feeling connected with so many people across the globe who are concerned about climate change and gender equality.”

“This was my first time attending a Climate Classroom from UNCC:Learn and it was truly amazing. It taught me how certain problems in the world need our attention.”

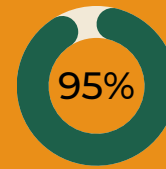

## Overall experience

Participants rated the overall experience as good or very good.

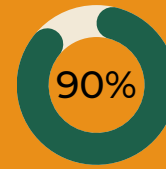

## Usefulness

Participants found the classes very useful.

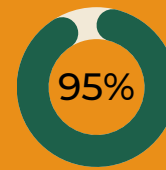

## The teacher

Participants thought the teacher was effective in delivering the class

## Intent to use

Participants will use the information acquired at their work or studies.

## Recommendation

Participants would recommend the climate classroom to a colleague.

“The experience was truly amazing. I can't wait for another Climate Classroom, it was very knowledgeable and it opened my mind to some great ideas in the fight against climate change”

“I have gained an excellent experience through these classes in climate and they are so useful in my career ”

“I highly recommend the Climate Classroom to anyone seeking to deepen their understanding of climate change and learn about practical solutions. It is a fantastic platform that bridges the gap between knowledge and action, empowering individuals to make a tangible difference in the fight against climate change.”
